Type of actuator

Input and Output signals

Set value

Set value **CLOSED**: _____ [mA / V]
 Set value **OPEN**: _____ [mA / V]

Feedback: Feedback

CLOSED: _____ [mA / V]
 Feedback **OPEN**: _____ [mA / V]

Valve adaption

Closing direction: _____
 Valve travel: _____ [°] max. 360°
 Cut-off valve **OPEN**: _____
 Cut-off valve **CLOSED**: _____
 Torque increase: _____ [%] max. 50%
 Duration: _____ [x100ms] max 25
 Max. force / torque: _____ [%] 50-100%
 Max. speed: _____ [%] 50-100%
 FailSafe: _____ [%]

Positions

Position 1 : _____ [%] move
 Position 2 : _____ [%] move
 Position 3 : _____ [%] move
 Position 4 : _____ [%] move
 Position 5 : _____ [%] move

Safety & Alarms

Safety funktion

Fault message

Set value error
 Torque error
 Power failure
 Critical temperature
 Maximum temperature
 Set value -error prozess sensor

Fault message

actuator not correctly commissioned
 mechanical damage
 faulty electronics
 wear limit reached
 position overrun
 position not reached
 Actuator not in AUTO mode
